

Antisemitic Attack: Just another Day in Hochul's NY

BY: Mindy Rader, Rockland Post Contributor

Another day, another hate attack. Yesterday an antisemite attacked people during worship services at the Central Synagogue in NY. And what happens? Crocodile tears from Laticha James, Kathy Hochul, and Zohran Mamdani make the news. They say how sorry they are about antisemitic attacks in NY however their very policies and support of antisemitic candidates in their own party leads to these attacks.

I did not hear any of these politicians criticize Graham Plattner in Maine who was proud of his concentration guard tattoo. He outwardly displayed Nazi symbolism and except for John Fetterman not a peep out of anybody. Shumer who claims his name means "Guardian of the Jews" stuck his head in the sand and supported this man because reclaiming the Senate against the "Nazi", Trump and Republicans was more important than standing up against an antisemitism. Indeed, antisemitism is a fundamental tenet of the Democrat Socialist Party. Jews are to blame for everything, rents, business, banks.

Doesn't this sound very familiar? We've heard this refrain before. It led to the death of 6 million Jews and another 6 million political prisoners in Nazi concentration camps.

It gets even worse. Many of these people deny a holocaust ever happened. They say October 7 is fiction. We have Hassan Piker and El Sayad in Michigan who spread vile ideas which our youth accept. They teach them that there is no hope. They teach them to hate, not love. And the only thing our youth are unwilling to do is to work hard to achieve the American dream. They won't even leave their house to go to work. We've raised a society of Maynard G. Krebs where work is a dirty word. What does this lead to? They cannot fulfill their dreams, and they have to blame it on somebody.

Well very clearly, it must be Trump or the Jews. How about in our own community, we use words like "the bloc" or "those people" or "them" to describe religious Jews in our community. This is not only non-Jews doing this but some of our fellow Jews. They forget that Hitler didn't care if you were religious or not, if you were 1/8th Jewish, you went to the ovens. Antisemitism has spread even within the Jewish community. Unfortunately, the right has its own Hassan Pikers. His name is Tucker Carlson, and her name is Candace Owens. Two haters who like to blame everything on the Jews.

The problem is that we don't teach history. We forget the past. And those who forget the past will repeat it. Americas system of checks and balances saves democracy and allowed this republic to survive 250 years. Now the Democrats, by embracing the DSA in their party threaten the very survival of freedom in this country.

So Hochul, instead of crocodile tears, stand up to those in your party who are antisemites. The Republicans have disowned Carlson and Owens. Why don't you disown those antisemites in your own party. That is why it's important to change NYS from a one-party state and show the world that we are smart enough to not play on our base hatred instincts but to show love of our neighbors. Voters must reject all politicians like Hochul and James who allow hatred into the Democrat's tent. Not only in NY but around the country. Every tent must have borders and who you allow in speaks volumes about who you are.
